

CARA KULHANJIAN

Gainesville, FL | [github.com/ckulhanjian](#) | [linkedin.com/in/cara-kulhanjian/](#) | carak143@gmail.com | 954-383-0973

EDUCATION

University of Florida | Honors College

Bachelor of Science in Computer Science

Specialization Courses: Human-Computer Interaction, Machine Learning, Circuits 1, Prompt Engineering

May 2027

3.88 / 4.0

Commented [SC1]: If you need space, you can eliminate.

SKILLS & CERTIFICATIONS

Languages and Tools: Python, C++, HTML & CSS, SQL, JavaScript, Figma, Gemini Enterprise Platform, Microsoft Power Platform

Libraries and Frameworks: Matplotlib, Seaborn, Scikit Learn, Pandas, NumPy, React, Flask

Certifications: IBM Design Thinking Practitioner

Commented [SC2]: PowerBI?

PROFESSIONAL EXPERIENCE

Arthrex Inc. | Naples, FL

IT Project Analyst Intern

May -August 2026

Drove the end-to-end development of a comprehensive SAP analytics dashboard, gathering requirements from business stakeholders, collaborating with an external contractor, and prototyping a 7-report Figma interface.

Developed a custom Power Apps solution to streamline registration and logistics for a reoccurring newcomer's lunch event.

Led a global user feedback group for the internal IT chatbot, gathering survey data and system feedback to map out future feature enhancements.

Khoshbouei Neuroscience Lab | Gainesville, FL

Undergraduate Researcher

February 2026 – Current

Analyzed brain imaging data across multiple lab projects, creating clear heatmaps and regression lines to map out which brain regions showed the highest concentrations of fungal infections.

Leveraged the All of Us research database to process over 800,000 patient records, isolating and analyzing a cohort of 7,000+ individuals with methamphetamine and GLP-1 history to build a predictive recovery and relapse model.

Travel Wizards | Remote

Backend Developer Intern

July – August 2025

Automated customer invoice processing by developing Python scripts with the OS and PyMuPdf libraries, which reduced a 2-hour manual task to under 5 seconds, optimizing internal workflow processes and communication with customers.

Leveraged Claude code to develop a line-by-line invoice parsing algorithm, restructuring raw billing data into visually polished, easy-to-read customer statements.

UF Computer Science Department | Gainesville, FL

Undergraduate Teaching Assistant

August – December 2024

Instructed and mentored over 30 students in weekly discussion sessions, improving their understanding of procedural and object-oriented programming by providing hands-on debugging support.

Created supplemental instructional materials, including coding review sheets and practice problems, to prepare over 700 students for exams and strengthen their comprehension of core concepts.

PROJECTS & DESIGN TEAMS

UF Dream Team Engineering | Speech Language Development Team

September 2025 – Current

Developed Python scripts using NLTK and spaCy to parse child speech transcripts and automatically apply SALT speech formatting, helping researchers more efficiently identify child speech disorders.

AMEX x UF WiCSE (Women in Computer Science & Engineering) Corporate Mentorship

August 2025 – December 2025

Building a web application that analyzes nutrition labels using Gemini Vision for optical character recognition, Gemini Pro for analyzing ingredients, and SQLite to store ingredients in a database for faster lookup times.

Analyzing 6 different dietary filters, making it easier for users to avoid the harm of unknown allergens or food triggers.

LEADERSHIP & INVOLVEMENT

Society of Women Engineers (SWE) Design Team | Team Tech Project Manager

August 2024 – May 2026

Led multi-disciplinary development in partnership with CACI, to build a machine learning web application that optimizes flight paths between airports and returns the optimal route with >80% accuracy in under 1 minute.

Managed project timelines, requirements, and deliverables using Kanban-based task tracking; coordinated development efforts through a hybrid Agile–Waterfall methodology to ensure on-time project execution.
